Sample Database Metadata

The MySQL sample database schema consists of the following tables:

- **Customers**: stores customer's data.

- **Products**: stores a list of scale model cars.

- **ProductLines**: stores a list of product line categories.

- **Orders**: stores sales orders placed by customers.

- **OrderDetails**: stores sales order line items for each sales order.

- **Payments**: stores payments made by customers based on their accounts.

- **Employees**: stores all employee information as well as the organization structure such as who reports to whom.

- **Offices**: stores sales office data.

For a more detailed description of each of the tables, use the DESCRIBE Statement:

Example

DESCRIBE Customers;
